Sno-King Agility Club
Practice Guidelines

The following practice guidelines were created in order to make our valuable practice time as effective and equitable as possible.

1. There is a maximum of 10 sign up spots available per practice session
2. Only dogs with experience on agility equipment may run during practice. If it appears that a dog is unfamiliar with the equipment and that the dog's safety is in question, the dog and handler will be asked to leave the course.
3. A liability waiver form is required for all handlers or guests participating in a practice session.
4. Due to the labor involved in setting up the equipment, there is a minimum of six (6) handlers needed for a practice.
5. There is a maximum of two (2) sign-up spots or four (4) rotations available per handler per practice session. However, if there are spots available at the time of the practice session handlers may sign up for additional spots.
6. You must sign up in advance. There are no drop-ins allowed unless there are empty spots.
7. The fee per practice session spot is $10.00. If after reserving a spot, you find you are unable to attend practice, please send a message to the club IO group. If you have signed up for a spot and do not show up, you are still responsible for the $10 fee.
8. A candidate for membership may sign up for the practice following the meeting in which his/her membership application will be read. All other guests wishing to run dogs must contact the practice coordinator.
9. The running order of the dogs will be according to height. If you have a request for a particular position within a height category, please let the practice coordinator know.
10. If your dog is next in line, please be on deck and ready to go. If you are not, you may lose your turn.
11. Observers are welcome, but may not bring a dog. Due to limited parking, please let the practice coordinator know if you will be bringing a guest to observe.
12. All participants are expected to help adjust equipment at height changes, reset knocked bars, keep time, and count for the table.
